Chinese-American Engineers  
and Scientists Association of  
Southern California

**CESASC**  
www.cesasc.org

Dear Students,

On behalf of the Chinese-American Engineers and Scientists Association of Southern California (CESASC) Scholarship Committee, I would like to inform you that the 2018 CESASC Scholarship is open for application. The deadline is **February 15 28, 2018**.

CESASC is one of the largest and the most established Chinese-American professional organizations in Southern California. Founded in 1962, CESASC has been dedicated to promote interests, aspirations, and professional excellence of Chinese-American engineers and scientists. CESASC provides career and educational advancement opportunities, technical exchange, fellowship and community service. In particular, CESASC offers annual scholarships to encourage young students to develop their interests and pursue their careers in the fields of science, engineering, and technology.

All scholarship recipients will be invited to the CESASC Annual Convention and network with professionals in the fields. Graduate student recipients may also be invited to present their research work at the CESASC Annual Convention. Each scholarship recipient will be paired up with a mentor who is a CESASC member.

In the past eight years, CESASC gave away more than \$70,000 in scholarships awarded to more than eighty excellent students. The 2018 Scholarship application form and FAQ files are attached for your convenience. More information and updates about CESASC and the Scholarship can be found at [www.cesasc.org](http://www.cesasc.org). All applications should be submitted online at <http://cesasc.org/content/2018-cesasc-scholarship-application> or via email to [scholarship@cesasc.org](mailto:scholarship@cesasc.org).

The awardees will be announced at the end of March, 2018. **Awardees must attend in person the annual convention events to receive the awards. Awardees are also required to join CESASC as a member, commit themselves to volunteer at CESASC STEM program (e.g., mentoring middle/high school participants of STEM essay contest), and help organizing future CESASC events and annual conventions.** Regardless of the final results, we encourage all applicants stay involved and participate in future CESASC activities, and be part of CESASC family.

Please help us notify your fellow students about this opportunity. We look forward to hearing from all of you.

Thank you for your interest and best of luck in your educational endeavor.

Sincerely,

Yu Gu, Ph.D.

Chair, 2017-2018 CESASC Scholarship Committee
